INVITATION FOR EVALUATORS OF RESEARCH PROJECT PROPOSALS

EATA represented by the Theory Development and Research Committee (TDRC) invites researchers from different fields to become evaluators of research project proposals applying for EATA grants once a year. Our aim is to promote high-quality research in TA and thus we are in need for researchers who are willing to evaluate research project received.

Role

- The function of the evaluator is to evaluate projects once a year and write a report according to the criteria EATA Research Committee has established.

Procedure of evaluation

- We had established a system of points to be accorded for each criteria, in order to make this as objective as possible
- Project evaluation is a double blind process (evaluators will not be known to the project authors and vice versa)
- The list of evaluators will be published on the EATA web page

Requirements and skills:

- member of EATA community
- research experience
 - Experienced researcher: previous participation as a researcher in research projects and having published research articles and/or PhD in Humanistic or Social Sciences having published research articles.
 - CTA trainer is a must as a lowest level of professional competencies, but PhD is a plus not a mandatory competency for evaluators.
- Previous experience in project evaluation is a plus

All interested send your brief CV with references of published articles to research@eatanews.org till 1st March 2014.
